Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	25 September 2026
Team ID	
Project Name	Medical Diagnostic Center Management System (ServiceNow Service Portal)
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Patient Registration	Register through patient registration form Validate and save patient details View and update patient profile
FR-2	Diagnostic Test Management	View available diagnostic tests View test name, category, price, and duration Admin can add, update, activate, or deactivate tests
FR-3	Appointment Booking and Tracking	Select a diagnostic test and preferred appointment date/time Submit and store booking details View appointment details and booking status
FR-4	Sample Processing and Report Management	Lab technician updates sample and test status Enter and verify diagnostic results Generate, view, and download diagnostic reports

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	The portal should have a simple, clear, and user-friendly interface for patients, lab technicians, and administrators.
NFR-2	Security	Only authorized users should access patient records, appointments, and diagnostic reports. Role-based access should be applied.
NFR-3	Reliability	The system should save records accurately and maintain consistent booking, sample, and report status information.
NFR-4	Performance	Pages and routine actions such as viewing tests, booking appointments, and opening reports should respond within a reasonable time.
NFR-5	Availability	The Service Portal should be accessible to authorized users whenever the ServiceNow instance is available.

NFR-6	Scalability	The system should support an increase in patients, diagnostic tests, appointments, and reports as usage grows.
