Ideation Phase
Brainstorm & Idea Prioritization

Date	26-09-2026
Team ID	23KD1A4220
Project Name	Medical Diagnosis Center by Service Portal (ServiceNow)
Maximum Marks	4 Marks

Brainstorming and Idea Listings:

Problem Identification:

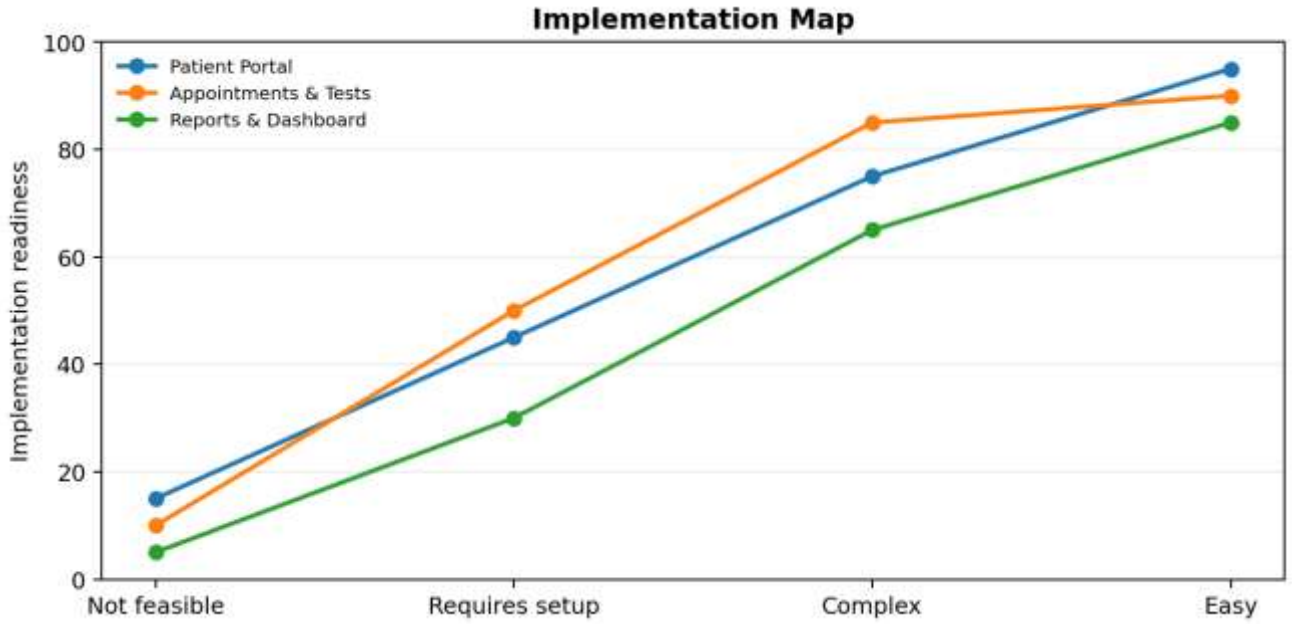

Brainstormed Features:

Idea 1	**Idea 2**	**Idea 3**
Patient registration and profile management.	Diagnostic test catalog and test selection.	Appointment booking and status tracking.
Idea 4	**Idea 5**	**Idea 6**
Lab staff workflow for sample collection and status updates.	Digital report generation and secure viewing/download.	Admin dashboard for bookings, patients, tests, and pending reports.

Key Objectives:

- Simplify diagnostic test and appointment booking.
- Maintain patient, appointment, and laboratory records in one system.
- Improve tracking of sample processing and report status.
- Provide convenient patient access to diagnostic reports.

Implementation Map:

Idea Prioritization:

Priority	Feature	Reason
High	Patient registration, test catalog, appointment booking	Core functions for patients to request diagnostic services.
High	Sample processing and report status	Allows lab staff to update progress and patients to track reports.
Medium	Reports and dashboard	Helps users view reports and admins monitor operations.
